By registering soon you will contribute to the early publication. A free online book will be published which the artist can link to. Explanation on the subject: "Poetry of Travel" (In memory of Paul Klee)

The book explores the question how traveling influences the creative process of artistic work. As art history shows, it is essential for people who create art to find new sources of inspiration and to travel for this purpose. As a rule, stimulating exhibitions are also visited and valuable contacts are made. Traveling also plays a major role in Paul Klee's CV. He spent almost every summer in a different cultural and historical place. Again and again he stayed in Italy, France and Switzerland, where many inspirational impressions could be absorbed. In particular, his trips to Tunisia and Egypt shaped his work, which is reflected in his rhythmic landscapes. In an abstract manner they continue into apparent infinity. His goal of exceeding the limits of sensual experience and fathoming the mysteries of nature led - just like his encounters with progressive currents in European painting - to a very personal style and ultimately to worldwide success. His works were also exhibited several times in New York during his lifetime.

You are free to choose the subject of the picture: How has traveling affected your artistic work? Are there something like key experiences that led to the change in style or to the thematic reorientation? And to what extent has the journey itself become worthy of being object of painting, the path the goal?

In order to enable you the greatest possible effectiveness and success as an artist, you will receive a contract of usage rights for the book. *I recommend that you use your user rights to the book as actively as possible for your reputation as an artist!*

For this is needed your signature under the contract of usage rights, which will be sent to you after your payment. Here is a sample contract:
